EDUCATION

Delhi Technological University

Bachelor of Technology in Chemical Engineering

New Delhi, India

Aug. 2024 – Aug 2028

Air Force Senior Secondary School

class 10th - 12th

New Delhi, India

June. 2021 – June 2023

EXPERIENCE

Founder & Full Stack Developer | AryaDeep

Web & Software Solutions Agency

New Delhi, India

Jan. 2026 – Present

- Founded and lead a web and software solutions agency delivering high performance and scalable digital platforms.
- Owned complete project execution from client consultation to production deployment.
- Delivered business websites, animated web experiences, and immersive 3D websites focused on performance and scalability.

PROJECTS

Ayutra – AI-Powered Ayurvedic Diet System | *React, Node.js, MongoDB, FastAPI*

- Developed an AI-driven healthcare system for personalized diet planning, prakriti analysis, compliance tracking, and patient management.
- Built machine learning services using FastAPI and XGBoost for prakriti prediction and diet generation on an 8,000+ Ayurvedic food dataset.
- Implemented role-based access control (Admin, Practitioner, Patient) with JWT authentication and secure REST APIs.
- Designed responsive dashboards with analytics, charts, and food explorer using React, Redux Toolkit, and Tailwind CSS.

Nimbus Keyboard – 3D Interactive Website | *Next.js, TypeScript, Three.js, React Three Fiber, GSAP, Prismic, Stripe*

- Created an immersive 3D keyboard product showcase using Three.js and React Three Fiber with interactive keycap themes and switch demos.
- Integrated GSAP animations, HDR lighting, asset optimization, and mobile-friendly 3D interactions.
- Implemented e-commerce functionality with Stripe checkout and dynamic content management using Prismic CMS.

Second Brain – Productivity and Knowledge Hub | *MERN Stack, TypeScript, Vite, Tailwind CSS, JWT*

- Built a full-stack productivity platform to save, search, organize, and share notes, YouTube links, articles, GitHub repositories, and documents.
- Developed secure backend APIs with JWT authentication, MongoDB, and modular TypeScript architecture.
- Designed a clean, responsive UI with filters, categories, and public sharing via unique shareable links.
